

# ELECTION COMMUNICATION

Following recent election expense controversies in North Cornwall you have a great opportunity. Not having the backing of Bankers, Big business and the Capitalist elites or the support of the, often, fake news mainstream media, we are funded by people from our communities and try to represent their views.

## VOTE SOCIALIST LABOUR

The **Socialist Labour Party** campaigned hard for our exit from the bosses' club known as the European Union.

But for weak and vacillating government we could already be out and increasing our trade with the rest of the world, as the majority of voters in Britain have demanded.

Rob Hawkins is your candidate in North Cornwall. He is a family man and has lived in the constituency for over 30 years. He has Cornish ancestors. Rob has a degree in economics from Manchester University. He is Chairman of a Cornwall wide branch of Britain's largest trade union and Secretary of the South West region of the SLP.

In **North Cornwall** on June 8<sup>th</sup> Vote against the wealthy tax dodgers who are ripping us off!

## VOTE FOR ROB HAWKINS

# OUR POLICIES INCLUDE :-

**Wages:** We demand a minimum rate of £12 per hour for all, including women and young workers and equal rights for part-time workers. We call for an end to exploitation as with false self-employment status and zero hours contracts.

**Health:** We call for free health treatment, including dental care, prescriptions and eye care. NHS nurses should not be having to use food banks to survive!

We also call for free NHS nursing homes and local authority operated care homes, with no private ownership. We would ensure that care costs would be free of worry for the elderly.

We would re-establish local cottage hospitals and take the pharmaceutical industry into public ownership. We would eradicate privatisation from the health service, which is bringing it to its knees.

**Housing:** We require a massive programme of easily affordable local authority housing and the abolition of second homes in North Cornwall. We would ensure that renting is secure and easily affordable.

**Transport:** We would provide a publicly owned rail network throughout North Cornwall. This would be easily affordable for all to use. It would also be a means of taking the heavy lorries off the roads in the area, which were not designed for them.

**Education:** We shall provide free education for all from cradle to grave. This includes free creches, play group facilities and the restoration of grants in higher education. We would eradicate privatisation from the education system, which is suffering from starvation of funding. We would vastly reduce class sizes and greatly increase the number of qualified teachers available to our education system.

**Pensions:** We shall guarantee pensions equal to our proposed national minimum wage. This would amount to £25,000 per annum for each individual, easily met out of the £3.65 trillion currently invested in life, private and occupational pensions.

**Taxation:** We would recoup the hundreds of billions of pounds of tax avoidance and evasion, hidden in places like overseas tax havens by the rich and powerful.
